

The FZ8 – brutal beauty

Aggressive looks and aggressive character define the Yamaha FZ8 – a high performance real world sports bike designed to deliver a shot of adrenaline every time you turn the key.

At the heart of the FZ8 is a flexible and powerful 779cc engine with instant drive and torque at low revs, and a trademark Yamaha rush of horsepower as you approach the red line. Light, easy handling and roomy ergonomics round out the ultimate everyday sports machine. A version featuring ABS is also available.

The FZ8 is not a bike for beginners – it's the naked sportsbike with true attitude and the power to back it up.

- Aggressive, mass-forward design
- 779cc engine
- Instant torque meets slingshot horsepower
- Aluminium frame
- Slim fuel tank and compact, roomy ergonomics
- Optional ABS

The FZ8 – instant adrenaline with an attitude

Yamaha's FZ range packs supersports performance into a versatile chassis for everyday enjoyment. The FZ8 breathes new life into the mid-class bike category – an assertive machine with instant grunt lower in the rev range.

The naked FZ8's muscular stance alerts you to the fact that this is a serious sports bike – light, fast handling and instant, willing power encourages bad behaviour and begs you to explore its full potential every time you turn the throttle.

Ride it hard with confidence – the FZ8 packs attitude, adrenaline and Yamaha's renowned build and finish quality into a flexible street sports machine for everyday performance riding.

Aggressive, mass-forward design

The FZ8's muscular, forward-moving looks make it clear right from the start that this bike means business. The aggressive headlight and 3-piece tank cover set the tone, but it's the powdercoated frame and jet-black engine that steal the attention.

Aggressive 779cc engine

An assertive engine combines cylinder bodies, crankshaft, top end and forged pistons to deliver a displacement of 779cc – the perfect power curve and character for this unique category.

Instant torque meets slingshot horsepower

The FZ8 engine is designed for instant drive down low with a thick torque band – making it a lively machine even on shorter trips. But rev it toward the red line, and you'll discover that trademark Yamaha rush of top-end power when it's time to unleash serious sports performance.

Aluminium frame

The black, powdercoated Deltabox frame at the structural centre of the FZ8 series features a low weight, high rigidity design – giving you outstanding high-speed stability and cornering confidence.

Slim fuel tank and compact, roomy ergonomics

The FZ8 has a slim tank and specially-positioned footrests and handlebars – for a riding position that feels light, compact and gives you the space to move.

Optional ABS

The optional linear control ABS will help prevent a skid and bring you to a controlled stop. Choose it hoping you'll never need it – but knowing it's there if you do.
