

**WR250R**

Engineered for the extreme.

Saturday and Sunday are your days. The days you live for. The WR250R is the ultimate weekender. Much more than just another trail bike, it's a blend of Yamaha's world-dominating off-road know-how and the no-compromise attitude of our R-Series supersport bikes.

It's engineered to deliver the purest feel and feedback, so you've got the confidence to take your technique to the next level and ride like you've never ridden before.

Equipped with lightweight titanium inlet valves, the liquid-cooled, 4-stroke, DOHC, 4-valve, single-cylinder engine pushes hard all the way to 10,000 rpm, making this one of the strongest 250 singles ever built by Yamaha.

- Dual-purpose bike
- 10,000 rpm 4-stroke single cylinder
- YZ-F motocross-type technology
- Titanium intake valves
- Fuel injection
- Aluminium main frame

A lifetime of adventure.

Some people say the age of adventure is over – after all, the world has already been mapped & discovered. But have you discovered it? That's the idea behind Yamaha's range of adventure bikes: Motorcycles that take you on rides you'll never forget, to places you never even knew existed. Motorcycles that keep going when the tarmac runs out. That is the essence of true adventure.

Our legendary adventure bikes were built for the biggest adventures; just you, your bike and a shimmering horizon.

Yamaha adventure bikes: From tough all-rounders, to radical enduro bikes. Get out there and discover the world. For yourself.

Dual purpose with a competitive edge

This is a no-compromise, dual purpose Supermotard based directly on our WR-F and YZ-F racers, which have won titles in every major dirt-bike championship going. Optimised for both on and off-road performance, it features a full-on, advanced competition spec: 10,000 rpm engine, aluminium main frame and race suspension.

Awesome engine

The 4-stroke, 4-valve, DOHC, 10,000 rpm single-cylinder engine is the real deal: Large diameter titanium intake valves and high lift cams for high rpm levels. It's also liquid cooled for peak performance, and features a ceramic-plated cylinder and forged piston, and is one of the strongest 250 singles ever built by Yamaha.

Super-responsive chassis

The light and tough aluminium main frame and swingarm afford incredibly agile handling, whether you're riding the roughest terrain or the city streets. On top of this, the bike is equipped with a 21 inch front wheel and 18 inch rear wheel, plus wave-type disc brakes.

Race-spec suspension

This motorcycle is engineered to deliver the purest feel and feedback. The competition-quality suspension features fully adjustable 46 mm upside-down forks, link-type monocross rear suspension and aluminium triple clamps.

Smooth and seamless

The electronic fuel injection system is designed to ensure strong, seamless power right across the rpm range, and delivers instant throttle response. The smooth operating clutch combines with a 6-speed gearbox for slick shifting and a gear to suit just about every road and off-road situation.

Stunning look and feel

With looks to match its stunning performance, this machine combines visual beauty with radical off-road design. No matter how extreme the terrain, you'll be riding in comfort thanks to a generous 300 mm ground clearance, plus handlebar, seating and footrest positioned for comfortable riding on or off-road.

ENGINE	
Type	Liquid-cooled, 4-stroke, forward-inclined single cylinder, 4-valves, DOHC
Displacement	250cc
Bore and stroke	77.0 x 53.6 mm
Compression ratio	11.8 : 1
Max. Power	22.6 kW (30.7 PS) @ 10,000 rpm
Max. Torque	23.7 Nm (2.42 kg-m) @ 8,000 rpm
Lubrication	Wet sump
Carburettor	Electronic Fuel Injection
Clutch type	Wet, multiple-disc coil spring
Ignition	TCI
Starter system	Electric
Transmission	Constant mesh, 6-speed
Final transmission	Chain

CHASSIS	
Frame	Semi double cradle
Front suspension	Telescopic forks
Front wheel travel	270 mm
Rear suspension	Swingarm (link suspension)
Rear wheel travel	270 mm

Front brake	Single disc, Ø 250 mm
Rear brake	Single disc, Ø 230 mm
Front tyre	80/100-21M/C 51P
Rear tyre	120/80-18M/C 62P
DIMENSIONS	
Overall length	2,180 mm
Overall width	810 mm
Overall height	1,230 mm
Seat height	930 mm
Wheelbase	1,420 mm
Min. ground clearance	300 mm
Wet weight (including full oil and fuel tank)	134 kg
Fuel tank capacity	7.6 litres
Oil tank capacity	1.5 litres

The winning combination

With Yamaha ownership, the excitement doesn't stop with your bike. To complete the picture we highly recommend genuine Yamaha Parts and Accessories.

We've developed a range of high quality, innovative riding gear, clothing and bolt-on accessories designed to offer enhanced performance and protection for you and your Yamaha. And bearing the Yamaha name, you're assured of quality, reliability and winning performance.

Yamalube® is our own range of high-tech lubricants. The lifeblood of Yamaha Engines, they are designed to carry on working effectively, no matter where you ride.
