

Our Premium Blend

Although designed to deliver the thrill and excitement of high performance solo riding, the versatile and luxurious 3-seat FZS is also a premium fast-cruising machine.

With an advanced NanoXcel[®] hull – the lightest in its class – combined with the extraordinary power of a large displacement, 1.8 litre supercharged engine, thrilling acceleration and high-speed performance come as standard. A rounded keel and special bow shape transform cornering and handling performance as well as providing added comfort.

Clever telescopic steering allows you to carve hard in the classic lean-forward position or make a quick adjustment in choppy water to ride securely in the stand-up style.

- Supercharged, 1812cc, 4-stroke, 4-cylinder, DOHC
- Race-inspired hull
- Quick-Shift Trim System (Q.S.T.S.)[®]
- Unique telescopic steering
- Industry-first remote security with Low-RPM Mode™
- Race-style cockpit
- Reverse Traction Control system
- Yamaha Engine Management System (Y.E.M.S.)[®]
- Re-boarding step
- Strong towing eye for skiers or water toys
- Glovebox, dual cup holders and watertight storage

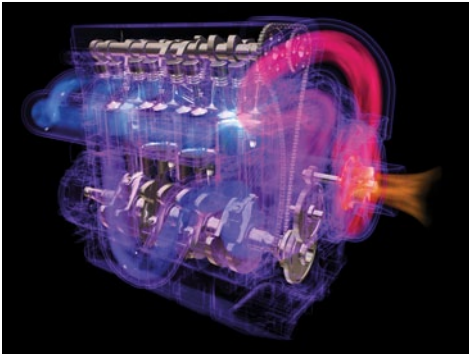

Technology the world trusts

A world-leading reputation has to be earned and with so many years of history behind them, today's WaveRunners are renowned for their agility and all-round performance on the water – and Yamaha's pioneering development of ultra-efficient 4-stroke engine technology means no other watercraft comes close.

From the lightweight NanoXcel® hull to the supercharged, intercooled 4-stroke 1812cc engine, Yamaha design, technology and engineering is at the forefront of innovation and advancement.

Finishing touches add luxury to the package, so the result is a blend of performance, agility and comfort that is equally suited to cruising or sports riding.

Supercharged, 1812cc, 4-stroke, 4-cylinder, DOHC engine

The supercharged, intercooled, 4-stroke 1812cc engine provides truly impressive power. With this large 1.8 litre displacement power unit, high capacity intake duct and specially designed impeller, the FZS delivers eye-popping acceleration and superb high-speed performance – whatever your style of riding.

Race-inspired hull

The specially designed, lightweight NanoXcel® hull delivers optimum performance in changeable water conditions. The round keel offers nimble turning performance, all the while reducing rider load. The bow is perfectly formed to provide natural handling, added agility, and unprecedented predictability. So rider is connected to water like never before.

Unique telescopic steering adjustment

Water conditions change quickly, so you'll appreciate the telescopic steering column of the FZS, which means you can adjust your riding stance to match. Adopt the classic, attack-minded forward-leaning position – or stand up for extra ride comfort in choppy waters. Switching naturally between the two positions is easy and instinctive.

Reverse Traction Control system

This advanced and innovative feature makes it easy to perform smooth, safe and professional manoeuvres during launching – and when docking or coming alongside other craft. The system works by limiting the RPM available in Reverse and reducing cavitation.

Remote security with Low-RPM Mode™

This innovative system is an industry-first for Yamaha. One click on the remote transmitter button engages a special "L" mode (Low RPM) to limit top speed – ideal for controlled manoeuvring. For your security and peace of mind, pushing a second button disables the ignition, preventing an accidental start-up – or an unauthorised joyride.

Race-style cockpit

Two large and stylish red-accented analogue meters reveal the racing spirit and true character of the FZS, providing a clear view of speed and RPM in a single glance. The rider can see and feel the craft responding to the slightest touch of the throttle.

Engine	
Engine type	4-cylinder, 4-stroke, DOHC, 4-valves
Supercharger	Yes (with intercooler)
Displacement	1,812cc
Bore x stroke	86.0 mm x 78.0 mm
Compression ratio	86 : 1
Cooling system	Water-cooled
Pump type	155 mm Axial Flow
Fuel	Unleaded Regular Gasoline
Fuel supply system	Electronic Fuel Injection
Fuel capacity	70.0 litres

Lubrication system	Wet sump
Oil capacity	4.3 litres
Dimensions	
Length	3.37 m
Width	1.23 m
Height	1.16 m
Dry weight	369 kg
features	
Storage capacity	80.6 litres
Rider capacity	1-3 person

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements. Yamaha Marine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®. Yamalube® is our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you drive.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative boating gear. An extensive range of casual wear is also available. For more information go to:

www.yamaha-motor-acc.com

All information in this brochure is given for general guidance only and is subject to change without prior notice. We should all exercise POWER WITH RESPONSIBILITY and help preserve the great sporting opportunities and enjoyment we all derive from our involvement with personal watercraft. You must recognise too, that your Yamaha WaveRunner is actually a boat, so please learn and follow all the rules of the sea and waterways, take professional instruction where possible, and obey local rules and regulations, which may differ greatly from area to area. The photographs featured show boats being driven by professionals and no recommendation or guidance in respect of safe operation or style of use is intended or implied by the publication of any of these images. Read all instruction materials carefully before setting out and ALWAYS wear recommended protective clothing and a life preserver or lifejacket when boating. NEVER DRINK AND RIDE.
