

The ultimate all-rounder

The TDM900 is a universal performer, built to handle whatever you throw at it – from unforgettable touring trips with a passenger to your everyday commute through city streets.

It offers the ultimate in versatility, with a flexible big-twin powerplant, well-balanced chassis and excellent comfort for both rider and passenger.

Its all round ability is the result of some careful design. The compact, fuel-injected, parallel twin engine delivers stacks of useable power that is easy to feel, and excellent traction thanks to the 270-degree crankshaft. It's the kind of easy-going engine that'll have you riding all day.

- Liquid-cooled 4-stroke, 2-cylinder, 5-valve engine
- Highly versatile bike for all occasions
- Relaxed riding position for extra comfort
- Long-range fuel tank and luggage rack for touring
- Beautifully sculpted aluminium frame
- Easy handling and brilliant braking

Yamaha Motorbikes: from urban jungle to open road

At Yamaha we have a reputation for breaking through boundaries. We've proven ourselves repeatedly by winning competitions on the tarmac and in the dirt, and you can count on our legendary spirit for high-tech bikes that also deliver winning performances on the city street or the open road.

Our machines are made to impress, from the intimidating muscular grace of the XJR1300 to the Supermotard flair of the XT660X or the zippy playfulness of the YBR250.

But they're also made to back up those looks with serious performance - with engines made for quick acceleration, and chassis designed for comfort and handling whether touring or on your daily commute.

Big power for town and country riding

Your needs in the city and out on the open road can differ dramatically. Thankfully, the versatile, compact, fuel-injected, parallel twin powerplant of the TDM900 delivers stacks of useable power that is easy to feel, with sweet pulses that you can really feel. Wherever you go, it's got the power to get you there.

Beautiful aluminium frame

In keeping with the aggressive styling of all our street bikes, the TDM900 has the looks to turn heads. You'll find it looks just as impressive at a city-centre traffic signal as peeling back the miles on a country lane. And it's made with comfort in mind too, with a weather-beating upper fairing and neutral, easy handling.

Ready to tour

This is one street bike that you'll be happy to take on a long tour. The TDM900 comes with some important sport touring extras, including a long-range, 20 litre fuel tank and an inbuilt luggage rack. It's just what you need to get away and explore the limits of this wonderful machine.

Complete comfort

You'll want to take someone with you on those longer cruises in the country, or even just when taking on the city streets. The TDM900's incredibly comfortable seating for passenger and rider means easy riding wherever you go. So mount up, and go exploring.

Super-responsive suspension

Experience even more comfort with the TDM900's wonderfully responsive and forgiving suspension. Whether you are tackling pot-holed city streets, or uneven country lanes, the telescopic forks at the front and swingarm (link suspension) at the rear will ease every lump and bump from the road.

ABS available as an option

Feel the responsiveness of the TDM900's braking system and you'll soon feel confident that it can take whatever the conditions throw at you. The dual disc, 298 mm front brakes and single disc, 245 mm rear brake mean it can handle city jolts as well as any surprises offered by the open road. A version featuring ABS, the TDM900A, is also available.

Engine	
Engine type	Forward-inclined parallel 2-cylinder, liquid-cooled, 4-stroke, DOHC, 5-valves
Displacement	897cc
Bore x stroke	92.0 mm x 67.5 mm
Compression ratio	10.4 : 1
Maximum Power	63.4 kW (86PS) @ 7,500 rpm
Maximum Torque	88.8 Nm (9.1 kg-m) @ 6,000 rpm
Lubrication system	Dry sump
Carburettor	Fuel Injection
Clutch Type	Wet, multiple-disc coil spring
Ignition system	TCI
Starter system	Electric
Transmission system	Constant Mesh, 6-speed
Final transmission	Chain

Frame	Aluminium Deltabox, Diamond
Front suspension system	Telescopic forks
Front Travel	150 mm
Caster Angle	25°
Trail	114 mm
Rear suspension system	Swingarm, (link suspension)
Rear Travel	133 mm
Front brake	Hydraulic dual disc, Ø 298 mm
Rear brake	Single Disc, Ø 245 mm
Front tyre	120/70 ZR18M/C (59W)
Rear tyre	160/60 ZR17M/C(69W)

Dimensions	
Overall length	2,180 mm
Overall width	800 mm
Overall height	1,290 mm
Seat height	825 mm
Wheel base	1,485 mm
Minimum ground clearance	160 mm
Wet weight (including full oil and fuel tank)	223 kg / ABS 226 kg
Fuel tank capacity	20.0 litres
Oil tank capacity	4.7 litres

 Gun Metallic  Midnight Black

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements. Yamaha Genuine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®, our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you ride. Besides functional and style accessories, Yamaha offers a range of high quality, innovative riding gear designed to keep you comfortable and protected, both on- and off-road. An extensive range of casual wear is also available. For more information go to: www.yamaha-motor.co.uk/accessories

Always wear a helmet, eye protection and protective clothing. Yamaha encourages you to ride safely and respect fellow riders and the environment. Specifications and appearance of Yamaha products shown here are subject to change without notice and may vary according to requirements and conditions. For further details, please consult your Yamaha dealer. Please check availability of colours with your local Yamaha dealer.
