Yamaha offers a variety of choices when it comes to snowmobile riding apparel, and the common thread throughout is quality and performance.

Yamaha riding gear is packed with the features that knowledgeable riders demand, with the style and bold brand identification that true Yamaha enthusiasts want. We've raised the bar with many of our apparel items by incorporating industry leading technology.

A racing philosophy is the driving force behind FXR® Factory Racing, Inc., and it shows in FXR® products. Yamaha has teamed up with FXR® to develop gear that features better and stronger fabrics; rider-specific fitting with super-aggressive pre-curving in the shoulders, arms, fingers, waist and knees; stretch gussets and panels in a variety of locations; and advanced venting technology and moisture-wicking fabrics.

INSULATION RATINGS

| | | |
|----|-----------------|---|
| 1 | UNINSULATED | MILD WEATHER/AGGRESSIVE RIDING GEAR A value of 1 has no thermal insulation and is suitable for mild climates or situations where intensive perspiration occurs. |
| 2 | | |
| 3 | | |
| 4 | | |
| 5 | | |
| 6 | | |
| 7 | | |
| 8 | | |
| 9 | | |
| 10 | INSULATED | COLD WEATHER /LOW ACTIVITY RIDING GEAR Values between 7-10 have extremely high thermal properties and are able to withstand extreme temperatures, well below -40°C/F and will keep you warm during sedentary outdoor activities. |
| 10 | INSULATED COMBO | SHELL and FIXED LINING COMBINED INSULATION RATING If the item is a 2-in-1 or 3-in-1 (indicating it has a removable liner), both the "SHELL" and "COMBO" (combined) value of the shell and liner will be displayed. |

ICONS

| | |
|--|--|
|   | ACMT™ Advanced Climate Management Technology is FXR's proprietary collection of dry mesh venting, dual-layered HydrX Pro™ laminates and seam sealed linings, creating a Dual Layer Moisture Shield. This elite combination dramatically improves an outerwear garment's ability to maintain waterproofness, breathability, reduce condensation, and manage the inner micro-climate zone between the body and the garment by creating a dual moisture shield against the damp and cold. |
|  | HydrX™ is FXR's exclusive Single Layer Moisture Shield that is applied to the outer shell of FXR products. HydrX™ is applied as a single layer laminate in mid-level FXR garments and a single layer coating in entry level FXR garments. |
|  | F.A.S.T. insulation is made from an expanded, low-density polyethylene foam membrane that offers buoyancy assistance for up to two hours. The flotation membrane construction has excellent insulation properties, even when wet, which is integral should you be submerged. The F.A.S.T. membrane is also moisture resistant and lightweight, which allows the user to retain excellent warmth and mobility. IMPORTANT – FXR jacket and pants with F.A.S.T. must be worn together as a suit to achieve buoyancy properties. Additionally, F.A.S.T. items will be rendered ineffective in adverse conditions such as strong water currents. F.A.S.T. equipped products are NOT COAST GUARD APPROVED. |
|  | FXR's Thermal Flex™ insulation is a powerful blend of polyester fiber fill that provides exceptional warmth and flexibility at any temperature. Unlike other fiber fills, which often become stiff in cold weather, our Thermal Flex™ insulation provides superior comfort, mobility and warmth season after season, wet or dry. |
|  | The new Dry Vent System™ is a high performance venting system that maximizes ventilation in radial side body vents and the chest of FXR jackets and the inner and outer thigh of FXR pants. Seam sealed venting mesh eliminates snow ingestion in all snow conditions, including bottomless powder or wet snow. It uses the cold air entering the vents to exhaust the warm air built within the inner microclimate between your jacket/pant and base layers. FXR's trademarked Dry Vent System™ is 99% more effective at controlling your core temperature and keeping you dry than any waterproof/breathable system on the planet. |
|  | Jackets/Pants = Indicates a durable 4-way stretch nylon/spandex shell with HydrX Pro™ Softshells/Trilaminates = Indicates a durable 4-way stretch Active fit trilaminate shell |
|  | EXKIN® PLATINUM is the ultimate technology for increasing warmth. Exkin® Platinum® thermal technology maintains warmth, prevents heat loss and retains insulating properties even when wet. Lightweight construction does not compromise mobility by adding bulk. Added to the back and chest of FXR products, it adds warmth to places that lose the most from being exposed to the wind. |

NOWADAYS, THE GENERALLY ACCEPTED WAY OF GETTING YOURSELF DRESSED FOR SNOWMOBILING AND OUTDOOR ACTIVITIES IS TO USE A THREE-LAYER SYSTEM.

Base layer

This is the first and most important layer of clothing you put on as it is in direct contact with your skin. When riding, it is very likely that you will be sweating and cooling down numerous times and it's important that your clothing works in a way that it can cool you down quickly but not too much.

A common problem in many outdoor activities is "after-exercise chill." Cotton T-shirts and other common underwear capture the moisture of sweat in their fabric and after your body has already cooled down and stops sweating, the wet cotton will keep on cooling your body down. Not only is this uncomfortable, it also forces your body to increase its heat production and it increases the chances of under cooling. The base layer should not retain moisture but transport it away from the skin, thereby countering "after-exercise chill."

Base Layer Materials

The materials used for base layers change constantly as textile manufacturers come up with new high-tech synthetic fabrics or re-invent natural materials like wool. In general, they all have common characteristics:

- The materials absorb only a very small percentage (< 1%) of their weight in moisture. In practice, this means that they draw moisture from your skin and dry very quickly.

Mid/Insulation Layer

The purpose of the mid or insulation layer is to retain body heat and the best way to do so is by creating a layer of still or dead air around your body. This still air will seriously decrease the heat exchange between your body and the outside world. The mid/insulation layer mostly consists of man-made fabrics/polyesters that are treated in a way that makes the fibers stand up and trap air between the fibers. This trapped air forms a protective layer of still air forming the main insulation.

Mid/Insulation Layer Materials

Fleece is most commonly used as a mid layer. It possess the ability to retain still air which insulates and prevents body heat loss as outlined above. Besides this, the treated polyesters used have almost the same moisture-transporting qualities as base layers and transport moisture to the outer layer and dry very quickly.

Outer Shell

The third and final layer in the three-layer system is the outer shell which is the only layer with direct contact to the outside world. The outer shell serves four main purposes:

- Protection from wind and outside moisture like rain and snow
- Getting rid of body moisture
- Insulation to keep you warm
- Protection from chafing, cuts, scrapes and other outside damage

Outer Shell Materials

Over the years, many textiles have been developed to be waterproof, water-resistant and/or breathable. Waterproof/breathable fabrics resist water droplets from passing through while at the same time allowing water vapor through and giving them the ability to block out rain and snow while allowing vapor from sweat to evaporate.

The textile can be waterproofed by either adding a membrane or a sprayed-on coating. The coating will wear down faster over time since it is exposed to the elements whereas the membrane is fused/bonded to the inside of the outer material or is a floating membrane sewn between the outer fabric and inner liner. Standard laboratory testing protocols define the performance of these fabrics.

Water resistance/proofness is measured by the amount of water, in mm, which can be suspended above the fabric before water seeps through.

Breathability is measured by the rate at which water vapor passes through, in the units of grams of water vapor per square meter of fabric per 24-hour period (g/m2/d), often abbreviated to just "g." Typical mid-range fabrics tend to have values of 5000mm of water proofness/resistance and 5000g of breathability; the highest end materials boast 20,000mm and 20,000g or more.

MEN'S OUTERWEAR

Yamaha clutch monosuit by FXR®

Ride with confidence anywhere you encounter water. Integrated life saving, ultra-light-weight, Flotation Assistance Safety Technology (F.A.S.T.), which provides maximum mobility, protection and warmth wet or dry.

- Clutch insulated - 180g Combined F.A.S.T
- Thermal flex insulation value
- 450D polyester shell with HydrX 5,000mm/5,000g/m²
- Mesh/fleece lining for climate control
- Heavy-duty waterproof zippers throughout
- FXR® Dry Vent System located at side body
- Adjustable/removable hood
- Adjustable collar and cuffs
- Reflective screens
- Adjustable cuffs with Lycra® inner cuff extensions
- 3M® reflective piping
- Thermal seat
- Dry seat, and dry knee inserts
- Lycra® cuff extensions
- Inner suspenders
- Pre-curved padded knees
- Reinforced instep, and hem
- Storm cuffs with boot lace retention snaps
- Drop down adjustable hem
- Back leg hem adjusters
- Yamaha applique embroidered logos

Yamaha CX lite monosuit by FXR®

For those that dare to be seen, this monosuit let's your gear stand out as much as your riding with bold, clean styling and colour combos. Sublimated graphics increases the overall waterproofing and durability of the piece while keeping the mono shell surface smoother to prevent snow and ice build-up in deep snow conditions.

- Durable, sublimated 450D polyester shell with Hydrx (5,000mm/5,000g/m²) laminate seam sealed in critical areas
- Mesh/fleece lining system
- FXR® Dry Vent System - snowproof and moisture resistant side body, chest, and leg vent system
- HD #8 waterproof zippers throughout
- Reflective screens
- Shock-cord adjustable collar
- Removable/adjustable hood
- Adjustable cuffs with Lycra® inner cuff extensions
- Padded knees
- Thermal seat
- Dry seat and knee inserts
- Adjustable suspender system
- Adjustable hem
- Reinforced instep and hem
- Storm cuffs with boot lace retention snaps
- Back leg hem length adjusters
- Removable liner available, sold separately

Warmth rating

Yamaha Ranger Instinct lite monosuit by FXR®

This monosuit has set the performance standard for extreme backcountry athletes around the world. The durable Omni Stretch shell material provides maximum stretch and mobility, while allowing the shell material to take impacts from trees and rocks with minimal chance of snagging or tearing. When coupled with the performance capabilities of ACMT, this provides an incredible user experience for those venturing out for long, unforgiving days in both the best, and worst, that mother nature has to offer.

- Durable, Omni Stretch Nylon Shell with HydrX Pro laminate seam sealed in critical areas
- ACMT (20,000mm/8,000g/m²) seam-sealed lining system with HydrX Pro and integrated venting
- FXR® Dry Vent System - snowproof and moisture resistant chest, bicep, side body, and leg vent system
- HD #8 waterproof zippers throughout
- Reflective screens on front, back and sleeves
- Goggle wipe chamois
- Shock-cord adjustable collar
- Removable/adjustable hood
- Adjustable cuffs with Lycra® inner cuff extensions
- Padded knees
- Thermal seat
- Dry seat and knee inserts
- Adjustable suspender system
- Lower back stretch insert
- Adjustable hem
- Reinforced instep and hem
- Storm cuffs with boot lace retention snaps
- Back leg hem length adjusters
- Removable liner available, sold separately

FXR® thermal dry active monosuit removable liner

Offering customers the ability to add Thermal Dry Active liner technology to a Monosuit shell for the ultimate in warmth, climate control, and versatility. Note that adding a removable liner will affect the sizing and overall fit of the monosuit. If a rider is on the borderline of splitting between 2 sizes, they should choose the larger size if they plan to run a removable liner. We've integrated our life saving, ultra-light-weight, F.A.S.T. "Float Assist" for buoyancy assistance, which provides maximum mobility, protection and warmth wet or dry.

- 120g Thermal Flex insulation value
- Moisture wicking mesh lining at outer and inner body
- YKK® zippers throughout
- Stretch gussets at shoulders and lower back
- Zip off drop seat for easy access
- Zippered chest pocket knit cuffs at sleeves and lower legs
- Soft fleece collar

Yamaha Mission FX jacket by FXR®

This jacket is another FXR® industry first combining floatation assistance in a cross-over/mountain jacket. We've integrated our life saving, ultra-light-weight, F.A.S.T. "Float Assist" for buoyancy assistance, which provides maximum mobility, protection and warmth wet or dry. Offers added protection and confidence tree-riding in the steep and deep, crossing lakes and rivers in the high alpine, or blitzing trails, ditches, rivers, and lakes in the mid-west. We have also added zonal Omni Stretch fabric for increased mobility. Ride with confidence anywhere you encounter water.

- Durable, poly shell and zonal Omni Stretch inserts at upper back and sleeves with HydrX Pro laminate
- ACMT (20,000mm/8,000g/m²) seam-sealed lining system with HydrX Pro and integrated venting
- FXR® Dry Vent System - snowproof and moisture resistant chest and side body vent system
- FXR® Thermal Dry Active removable liner with 150g Thermal Flex fill
- Advanced floatation assistant closed cell foam insulation system (F.A.S.T.) with 60g insulation value in body and outer sleeve zones
- YKK® AquaGuard front zipper
- HD #8 waterproof zippers throughout
- Adjustable windsirt with improved snow and wind protection

| 8AC-77591-99-HD |
|-----------------|

Heavy Duty hook with schakel. Manages very high load because of the design. Specially developed for VK540, Swedish produced. Suitable VK450. Anodized

Towhook for all snowmobiles

| |
|------------|
| YFM-910-75 |
|------------|

Rear racks

| |
|---------------------------------|
| RS VENTURE TF LE, RS VENTURE TF |
| SMA-8HFRR-RA-CK |

Add extra carrying capacity with this heavy-duty.

Hook ball type

| |
|------------------|
| VK540, RS VIKING |
| YFM-910-50 |

Double hook with ball. Can pull very high loads due to design. Specially developed for VK540, produced in Sweden.

Tow hook bracket for SRViper

| |
|------------|
| YFM-914-00 |
|------------|

Tunnel rack

| |
|---|
| SIDEWINDER L-TX, S-TX DX 137, X-TX LE 137 / SRVIPER R-TX, L-TX, X-TX SE |
| SMA-8JPRK-10-BK |

Bring any extra items you need with this large tunnel rack. This design allows you to easily secure your gear with bungee cords or other types of lines (not included).

- Requires Rear Grab Bar & Hitch Kit, sold separately.
- All hardware Included

WIND-SHIELDS & MIRRORS

Low windshield

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| SMOKE | SMA-8LR96-10-SM |

Low profile, and aerodynamic windscreen complements the aggressive profile of the sled's front end.

- Made of smoke polycarbonate with black silk screening
- 10.25"

Low sport windshield

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| BLACK | SMA-8JP96-11-BK |
| BLUE | SMA-8JP96-11-BL |
| RED | SMA-8JP96-11-RD |

Provides improved protection over stock. Adds a splash of colour with racing inspired graphics.

- 14.75"

Tall windshield

| SIDEWINDER | |
|------------|-----------------|
| CLEAR | 8MH-K7210-00-00 |
| SMOKE | SMA-8LR96-20-SM |

Mid height windshield

| SNOSCOOT/SRX120 | |
|-----------------|-----------------|
| CLEAR | SMA-8ML96-20-00 |

Helps deflect wind and snow for taller riders or those who prefer a more upright riding position.

- Made of polycarbonate

Extreme low windshield

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| BLUE WITH STROBES | SMA-8JP96-00-BL |
| BLACK | SMA-8JP96-00-BK |

These colored windshields provide an upgraded look. The Blue and Red Windshield is painted clear plastic

Adapter plate for mirror kit

| |
|-----------------|
| SMA-8LJMR-DA-KT |
| Picture N/A |

Medium sport windshield

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| SMOKE | SMA-8LR96-21-SM |

Adds both style and function while offering up even more wind protection for those especially cold days on the trail. Gives a custom look to the front profile of the sled.

- Made of smoke polycarbonate with black silk screening
- 16.5"
- Pre-marked for accessory mirrors SMA-8LJ26-00-00 sold seperately

Medium windshield

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| SMOKE | SMA-8LR96-30-SM |

Adds both style and function while offering up even more wind protection for those especially cold days on the trail. Gives a custom look to the front profile of the sled.

- Made of smoke polycarbonate with black silk screening
- 18.5"
- Pre-marked for accessory mirrors SMA-8LJ26-00-00 sold seperately

Medium windshield

| SRVIPER R-TX, L-TX, X-TX SE, S-TX & SRVENTURE DX | |
|--|-----------------|
| CLEAR | SMA-8JP96-20-00 |
| SMOKE | SMA-8JP96-20-SM |

Customizes the look of your sled and offers additional wind protection.

- Made of polycarbonate

Tall windshield

| SRVIPER R-TX, L-TX, X-TX SE, S-TX & SRVENTURE DX | |
|--|-----------------|
| CLEAR | SMA-8JP96-30-00 |

Customizes the look of your sled, and offers additional wind protection.

- Made of polycarbonate
- 19.25"

Windshield mirror kit

| SIDEWINDER/SRVIPER | |
|--------------------|-----------------|
| CLEAR | SMA-8LJ26-00-00 |

Accentuates the sporty styling of your sled while helping you stay aware of your surroundings.

- Mounts to outside of windshield
- Works with the Medium Sport Windshield and the Medium Windshield only, sold separately

Tall windshield

| SNOSCOOT/SRX120 | |
|-----------------|-----------------|
| CLEAR | SMA-8ML96-30-00 |

Offers significant increase in wind protection.

- Helps deflect snow and wind from rider
- Made of a high-quality polycarbonate

PROTECTION & GRIPS

Sport front grab bar

| |
|-----------------|
| SRVIPER |
| SMA-8JWFT-BU-BK |

Add more front end protection and a custom, sporty look to the front profile of the sled.

- Aluminum construction
- Durable powder-coat finish
- Mounting hardware included
- Will not work with Front Skid Plate

Front grab bar

| |
|-------------------|
| SIDEWINDER |
| SMA-8MT55-00-BK |

Offers a solid grip and bold styling to the front of your snowmobile.

- Constructed of ultra-lightweight aluminum tubing
- Only weighs 3.5 lbs

Rear trail skid plate

| |
|--|
| SIDEWINDER R-TX, L-TX, S-TX DX, X-TX, B-TX, 2017 M-TX |
| SMA-8LR34-RR-BK |

Gives full coverage protection for your clutch, exhaust, and chain case components.

- 1/4" thick high molecular weight polyethylene

Rear skid plate

| | |
|----------------|-----------------|
| SRVIPER | SMA-8JP34-RR-BK |
| BLACK | |

Gives full coverage protection for your clutch, exhaust, and chain case components.

- Can be used with Front Skid Plate or optional Sport Front Grab Bar, both sold separately

Switch guards

| |
|--|
| SIDEWINDER (2017-18) SRVIPER (2014-CURRENT) |
| SMA-8KG86-00-00 |

Helps prevent accidental shut off of control switches.

- Hand/thumb warmer guard
- Stop switch guard
- Adhesive

Console knee pads

| |
|-------------------|
| SIDEWINDER |
| SMA-8LR24-00-BK |

Add comfort and extra grip for your knees while protecting your machine's bodywork from scuffing

- Heavy-duty durable nylon construction
- Mounts to snowmobile securely
- Cushioned pads
- Sold in pairs

Pro skid plate

| |
|---------------------------|
| SIDEWINDER/SRVIPER |
| SMA-8LR34-00-BK |

Race-inspired design that offers lightweight protection from stumps, rocks, ice chunks, and other trail debris that can damage the bottom of the snowmobile chassis.

- Durable UHMW construction
- Includes all mounting hardware

Rear M-TX skid plate

| |
|-------------------------------|
| 2018 + SIDEWINDER M-TX |
| SMA-8MP34-00-BK |

Gives full coverage protection for your clutch, exhaust, and chain case components.

- 1/4" thick high molecular weight polyethylene

Front skid plate

| |
|-----------------|
| SRVIPER |
| SMA-8JP34-FR-BK |

Improves approach angle and protects the nose cone from damage by stumps, rocks, ice chunks and other debris.

- Can be combined with Rear Skid Plate, sold separately
- Will not fit up in conjunction with Sport Front Grab Bar

Floation skid plate

| |
|-----------------|
| SRVIPER |
| SMA-8KC34-00-BK |

Adds the maximum amount of protection and additional floation, helping the snowmobile float through the powder.

- Durable UHMW construction
- Includes all mounting hardware
- Does not fit up with optional accessory front bumpers

Passenger hand warmers

| |
|-----------------|
| VK540 |
| SMA-8KXHP-PS-00 |

Provides excellent cold air protection for your passenger's hands.

- Water and wind resistant nylon outer
- Warm inner liner
- Easily attached with Velcro® straps

Console knee pads

| |
|-----------------|
| SRVIPER |
| SMA-8JP24-00-WH |

Add comfort and extra grip for your knees with these cushioned pads.

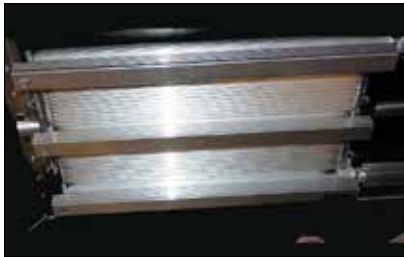

- Mounting hardware included

Performance grips

| | |
|--------------------|--|
| SIDEWINDER/SRVIPER | |
| SMA-8JP61-00-BK | |

- Slim and comfortable design offers better shock absorption.
- Thinner material allows more effective heat transfer from hand warmer elements
 - Sold in pairs

Tunnel protectors

| | |
|---|--|
| SIDEWINDER R-TX, L-TX, SRX, S-TX DX 137 | |
| SMA-8LR21-50-00 | |

- Protects your unit against damage that can be caused by a studded track.
- Sold in pairs
 - All necessary hardware included

Hand guard wind covers

| | |
|-------|-----------------|
| BLACK | SMA-09HGC-BK-00 |
|-------|-----------------|

- These deflectors have a semi-rigid design that allows them to be installed directly onto your bare handlebars without having to install rigid hand deflectors. Offers additional wind protection and good looks.

Snoscoot running board grips

| | |
|-----------------|--|
| SNOSCOOT/SRX120 | |
| SMA-8ML57-00-BK | |

- Allows maximum grip in all snow conditions.
- Adds additional rows of grip to edges of running board as well as centre section

Sidewinder Pro front grab bar

| | |
|---------------------------------------|--|
| SIDEWINDER AND SRVIPER B-TX, M-TX 162 | |
| SMA-8KCFT-BU-BK | |

- Add both protection and customization to your Sidewinder with the pro front grab bar. This grab bar is race-inspired and gives the front profile of the sidewinder a sporty, aggressive look without adding extra weight.

Snow flaps

| | |
|--------------------|-----------------|
| SIDEWINDER/SRVIPER | |
| BLACK | SMA-8JP77-59-BK |
| RED | SMA-8JP77-59-RD |
| BLUE | SMA-8JP77-59-BL |

- Add some style and flair by simply replacing the stock flap on your sled.
- Sold individually

50th anniversary graphic kit

| | |
|-----------------|--|
| SNOSCOOT | |
| SMA-8ML70-00-00 | |

- Add a custom look with some Yamaha Heritage with these 50th Anniversary decals.
- Peel-and-stick application allows for easy installation
 - Decals feature an added laminate layer for increased durability
 - limited quantities available of this special kit

TRIM & ACCENTS

SLIDES & WHEELS

Spoked Rear Axel Guide wheel 178 mm

| | |

| SIDEWINDER/SRVIPER S-TX DX 146, B-TX, M-TX & SRVENTURE DX | |
| 174" | SMA-DPSSV-MT-00 |

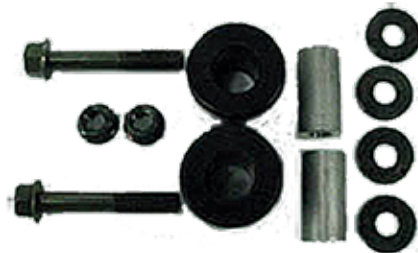

- Perfect for everyday riding on the trails or in the mountains. Reduces the friction and protects the aluminum rails from track wear.
- DuPont Vespel® material inserts
 - Space-age polymer/composite material, that is stronger than hardened steel, aluminum, or even titanium
 - 15T scale Rockwell hardness of about 80 (UHMW slide runner hardness rating is about R64)
 - Capable of withstanding extreme friction and heat environments
 - Pieces are placed at a 30-degree angle across the entire slider for constant contact and even wear
 - Made using compression moulding process
 - Partially made with current UHMW plastic slide runner material
 - Sold individually

Rear fourth wheel kit

| | |
|--|-----------------|
| 17-18 SIDEWINDER/SRVIPER L-TX, S-TX, X-TX, SRX, B-TX, M-TX (8.0" X 0.787") | |
| BLACK | SMA-8JY47-00-BK |

- Outside idler wheels help keep track in proper alignment and spreads load evenly across the entire track.
- Wheels
 - Spacer blocks
 - All necessary hardware

SKIS & RUNNERS

Woody's ace runner set

| | |
|---|-----------------|
| 2017+ SIDEWINDER X-TX LE 141, B-TX, M-TX / SRVIPER B-TX, M-TX | |
| 6" | SMA-AY688-00-00 |
| 8" | SMA-AY888-00-00 |

- Works great when riding in deep snow.
- 60° turning carbide on a tall, square host bar
 - Sold in pairs

Snoscoot carbide runner set (2")

| | |
|----------|-----------------|
| SNOSCOOT | |
| 11" | SMA-8ML31-02-00 |
| 9" | |

- Direct replacement of your stock runner to improve the overall handling of your unit.
- 2"
 - Sold in pairs

Woody's dooly carbide runner

| | |
|---|-----------------|
| 2014 SRVIPER R-TX, L-TX, X-TX, 15~16 M-TX | |
| 4" | SMA-DA499-75-00 |
| 6" | SMA-DA699-75-00 |
| 8" | SMA-DA899-75-00 |

- Improves handling on the snow surface by utilizing four traction lines which reduces darting as it makes its own groove in the trail.
- Each wear bar features two 7/16" runners with centre carbide
 - 90° carbide
 - Sold individually

Ski skin

| | |
|----------|-----------------|
| SNOSCOOT | |
| 11" | SMA-8FNSK-11-BK |
| 9" | SMA-8FNSK-09-BK |

- Increases ski flotation in deep snow conditions.
- Made of HDPE (high density polyethylene)
 - Bolts directly to the stock ski
 - Sold individually

Woody's Extender Trail III runner set (4")

| | |
|--|-----------------|
| 2017+ SIDEWINDER R-TX, L-TX, SRX, S-TX, X-TX 137, X-TX 141 SE / 2015+ SRVIPER R-TX, L-TX, S-TX, X-TX | SMA-DA499-75-00 |

SUSPENSION

Oilite® bushing kit

| |
|-----------------|
| VENTURE |
| SMA-8GCFR-KT-00 |

This 12-piece kit replaces the stock front suspension plastic bushings with metal Oilite® bushings. Made of a copper/iron alloy impregnated with an oil lubricant (self-lubricating) commonly used in industrial and high performance bearing applications. These bushings drastically improve wear. Consumers have reported 10 times longer bushing life with these Oilite® bushings versus stock plastic bushings. Due to the material nature of metal versus plastic, one can construct the bushing to much tighter tolerances, which translates into less free play/unwanted movement in your front suspension. These bushings also offer a higher resistance to harsh operating condition changes including temperature and moisture which equates to a longer lasting, more durable bushing. Includes: Upper Inner A-Arm (4); Lower Inner A-Arm (8).

Snoscoot heavy-duty suspension springs

| |
|-----------------|
| SNOSCOOT |
| SMA-8ML35-00-00 |

Upgrade your suspension with stiffer springs designed to resist bottoming.

- 2 rear torsion springs
- 2 ski shock springs

Oilite® bushing kit

| |
|--|
| APEX 2009-2010, RS VECTOR 2009-2017, RS VENTURE 2015-2017 & RS VIKING 2015-2017 |
| SMA-8FTFR-KT-00 |

This 28-piece kit replaces the stock front suspension plastic bushings with metal Oilite® bushings. Made of a copper/iron alloy impregnated with an oil lubricant (self-lubricating) commonly used in industrial and high performance bearing applications. These bushings drastically improve wear. Consumers have reported 10 times longer bushing life with these Oilite® bushings versus stock plastic bushings. Due to the material nature of metal versus plastic, one can construct the bushing to much tighter tolerances, which translates into less free play/unwanted movement in your front suspension. These bushings also offer a higher resistance to harsh operating condition changes including temperature and moisture which equates to a longer lasting, more durable bushing. Includes: Upper Bulkhead (4); Lower Bulkhead (4); Upper Inner A-Arm (4); Lower Inner A-Arm (4); Upper Outer A-Arm (4); Lower Outer A-Arm (4); Spindle (4).

Billet suspension adjustment blocks

| |
|--|
| SRVIPER AND SIDEWINDER WITH REAR TORISION SPRINGS |
| SMA-8JP39-BL-00 |

Helps you achieve the ride quality that you want by allowing custom tuning of your rear suspension to 4 levels of spring preload. Made from solid billet aluminum and anodized for long life.

Scorchers™ ice scratchers

| |
|-----------------|
| SMA-ICESC-BK-00 |
|-----------------|

Lubricates hyfax and assists cooling when riding on hard-packed trails or frozen lakes. Stows away to a nested position when not in use. Heat-treated, heavy-duty steel springs with anodized CNC machined, aircraft aluminum washers to ensure durability and high performance. Drilling may be required. Can be used with or without idler wheels. See your Yamaha dealer for fitment information.

TRIC™ ice scratchers

| |
|-----------------|
| SMA-ICESC-02-ST |
|-----------------|

Innovative scratcher kit provides additional snow spray in hard-packed icy conditions to help reduce rear suspension hyfax wear and engine overheating. Creates a steady stream of ice crystals to provide both lubrication for the rear skid frame and additional cooling to the heat exchangers on liquid-cooled machines. Features stainless steel cables and adapters which can be rotated to allow for left or right applications. This flexible cable allows the operation of the reverse gear when the scratcher is engaged. Uses common 1/4" threaded replaceable carbide stud (included). Also includes stainless steel hardware with universal mounting brackets which allow for an infinite range of cable angles to facilitate mounting on various locations and models. Sold as a pair.

TRIC® carbide studs

| |
|-----------------|
| SMA-ICESC-CB-AP |
|-----------------|

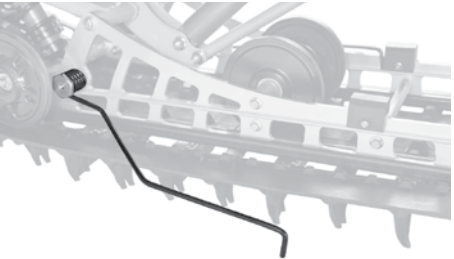

Sparepart studs for TRIC® Ice Scratchers.

Scorchers™ ice scratchers

| | |
|-------|-----------------|
| BLACK | SMA-ICESC-BK-00 |
| BLUE | SMA-ICESC-BL-00 |

Lubricates hyfax and assists cooling when riding on hard-packed trails or frozen lakes.

Ice scratchers

| |
|---|
| SRVIPER AND SIDEWINDER (EXCEPT RTX) (EXCEPT R-TX AND LE) |
| SMA-8JP38-00-KT |

Helps prevent slide runner wear when on ice and hard pack snow. They rest on top of the slide rail when not in use or when backing up.

- Not meant to use in reverse
- Sold in pairs

UNIVERSAL & SHOP

Shovel pack

**SRVIPER AND SIDEWINDER LTX,
XTX,BTX AND MTX.** SMA-8KS63-00-00

Convenient, durable storage for a folding shovel and other avalanche safety gear for hard core back country riders. Durable molded top with quick release buckle system. Low profile design to not impede the typical riding style of the back country expert.

Engine stop tether

2014-18 SRVIPER SMA-8JP81-00-00
2019 SIDEWINDER/SRVIPER SMA-8MS81-00-00
SNOSCOOT SMA-8ML81-00-00

Stops the engine in the event you get separated from your sled.
• The end of the tether attaches to your jacket D-ring.

Deluxe heated shield outlet

SIDEWINDER/SRVIPER
SMA-8LR10-00-00

Add a heated shield outlet to your machine.
• Dash mounted
• Equipped with cover to protect plug from ice, and snow
• Simple Installation with factory accessory pig-tail
