

## OFF ROAD COMPETITION

*GYTR Performance Products are especially developed for closed circuit use only and they are not street legal.*

Product	Part Name	Part Code	Part Description
YZ85	GYTR® Billet Clutch Cover	GYT-5PA35-10-AL	The GYTR® Clutch Cover is designed to replace the standard cover whilst giving a more factory look. - High quality aluminium with ball-burnished finish
YZ125	GYTR® silencer refill package	1SR-FIBER-SP-00	Refill package for the GYTR® silencer.
	GYTR® Heavy Rotor	1SR-E5550-KT-00	Heavy flywheel for better performance of the YZ125, part of the GYTR® YZ125 High Performance Kit
	GYTR® Billet Clutch Cover	GYT-1C335-10-AL	The GYTR® Clutch Cover is designed to replace the standard cover whilst giving a more factory look. - High quality aluminium with ball-burnished finish
	GYTR® Carbon Ignition Cover	1SR-E5411-00-00	High quality carbon cover to replace standard plastic ignition cover. - Quick replacement - Inlay GYTR® logo for ever lasting looks - Weight saving and stronger compared to original part - 36 gram weight reduction
	GYTR® by BRAKING®, Solid Rear Brake Rotor	1SL-F58G0-V0-00	Rear brake rotor with no slots to replace the original. - Increases brake pad life in muddy conditions - Top level quality and durable By BRAKING® - Compatible with all YZ models
	GYTR® Billet Front Wheel Spacer Kit	5XC-F51A0-V0-00	Get Factory Racing look and function with these billet front wheel spacers that have integrated dust covers and a seal lip. - Helps to keep the spacers in place during wheel installation/ removal - High quality material - Compatible with all YZ models
	GYTR YZ125 High performance kit	1SR-HIPER-KT-08	- includes 2 GYTR piston assy (2 circlip, ring, piston pin) - GYTR heavy rotor - GYTR exhaust pipe - GYTR silencer - carburettor setting kit - GYTR cylinder head with removable insert - Vforce air intake with carbon valve reeds - GYTR CDI unit - GYTR ported cylinder with installed oil-seal - carbon ignition cover - exhaust valves included

Product	Part Name	Part Code	Part Description
YZ250	GYTR® Billet Clutch Pressure Plate	GYT-5XD56-20-00	<p>Part of the GYTR® Clutch Components which are precision machined from aerospace-quality aluminium with a unique hard coating.</p> <ul style="list-style-type: none"> <li>- The GYTR® Clutch Components provide superior performance and clutch feel, as well as excellent component durability</li> <li>- The patent-pending "auto oiling system" forces oil through specially cut holes in the pressure plate, into the inner hub, and then to the clutch plates</li> <li>- Results in improved clutch performance, with lower clutch temperatures, less clutch expansion and extended clutch life</li> <li>- Less rotational mass for improved acceleration</li> <li>- Lighter than original components</li> </ul>
YZ250F	GYTR® Off-Road Flywheel	1SM-H13A0-V0-00	<p>Heavier flywheel helps to get power to the ground and keep your momentum up through corners and tricky sections.</p> <ul style="list-style-type: none"> <li>- Results in faster lap times and more race wins</li> <li>- Smoothest the power delivery</li> </ul>
	GYTR® Piston Circlip	1SM-E2842-T0-00	<p>Replacement high performance GYTR® Piston Circlip.</p> <ul style="list-style-type: none"> <li>- Spare circlip for GYTR® high compression piston</li> </ul>
	GYTR® Cylinder Head	1SM-E11B0-S0-00	<ul style="list-style-type: none"> <li>- Ensures the ultimate in performance with durability</li> <li>- CNC ported to the maximized design</li> <li>- Utilizes OE valve train</li> <li>- Developed on the flow bench in conjunction with dyno and track testing</li> <li>- GYTR® Performance Camshafts installed to provide higher valve lift and different cam profile</li> <li>- Including stock valve train and cam gears for durability and easy maintenance</li> <li>- Fully assembled and ready to install</li> <li>- Used by Yamaha SX / MX race teams</li> </ul>
	GYTR® Piston Ring Set	1SM-E1603-T0-00	<p>Spare parts for GYTR® High Compression Piston Kit.</p>
	GYTR® Billet Ignition Cover	1SM-E54G0-V0-00	<p>Stronger cover than original version, provides limited risk of loosening oil cap and large timing plug during a race.</p> <ul style="list-style-type: none"> <li>- Finish is both durable and attractive</li> <li>- Developed in conjunction with race teams</li> </ul>

Product	Part Name	Part Code	Part Description
YZ250F	GYTR® Water Pump Guard	1SL-F14C0-V0-00	<p>Lightweight composite protection cover to replace the original the water pump cover.</p> <ul style="list-style-type: none"> <li>- For added protection to the right side engine components</li> <li>- Will flex and not bend during an impact</li> <li>- Strong and durable</li> <li>- Can be fitted as a stand-alone accessory or with the optional available GYTR® MX Glide Plate</li> <li>- Compatible with YZ250F '14 '15 '16 '17 '18 &amp; YZ450F '14 '15 '16 '17 models</li> </ul>
	GYTR® Stainless Steel Braided Rear Brake Line	5XC-F58A0-V0-00	<p>Top-quality brake line designed to not fatigue even under extreme conditions.</p> <ul style="list-style-type: none"> <li>- Utilizes Teflon® inner liner supported by a rugged 308 stainless steel outer jacket</li> <li>- Silver braided lines with black banjo fittings</li> <li>- Compatible with all YZ models</li> </ul>
	GYTR® Billet Clutch Cover	1SM-E54E0-V0-00	<ul style="list-style-type: none"> <li>- High quality aluminium with ball-burnished finish</li> <li>- Finish is both durable and attractive</li> <li>- Developed in conjunction with race teams</li> </ul>
	GYTR® Billet Clutch Pressure Plate	1SM-E63B0-V0-00	<p>Part of the GYTR® Clutch Components which are precision machined from aerospace-quality aluminium with a unique hard coating</p> <ul style="list-style-type: none"> <li>- The GYTR® Clutch Components provide superior performance and clutch feel, as well as excellent component durability</li> <li>- The patent-pending "auto oiling system" forces oil through specially cut holes in the pressure plate, into the inner hub, and then to the clutch plates</li> <li>- Results in improved clutch performance, with lower clutch temperatures, less clutch expansion and extended clutch life</li> <li>- Lighter than original components</li> <li>- Less rotational mass for improved acceleration</li> </ul>
YZ450F	GYTR® Ported Cylinder Head Assembly	BR9-E11B0-V0-00	<ul style="list-style-type: none"> <li>- Ensures the ultimate in performance with durability</li> <li>- Provides highest level of performance</li> <li>- Every head is CNC ported to the maximized design, eliminating variances that hand porting supports</li> <li>- Utilizes OE valve train</li> <li>- Developed on the flow bench in conjunction with dyno and track testing</li> <li>- GYTR® Performance Camshafts are installed as well as stock valve train and cam gears for durability and easy maintenance</li> <li>- Ready to install</li> </ul>

Product	Part Name	Part Code	Part Description
YZ450F	GYTR® Performance Camshafts	1SL-E21F0-V0-00	<ul style="list-style-type: none"> <li>- Maximizes your mid-range and top-end horsepower and torque without sacrificing any of your low-end power</li> <li>- Ground to exact specifications using special CNC cam-grinding machines improves reliability</li> <li>- Special all billet alloy construction provides consistent machined surfaces for increased durability</li> <li>- Camshafts come with durable stock cam gears, de-comp installed and degreed timing</li> <li>- These camshafts are designed for use in modified engines equipped with a high compression piston</li> <li>- Ready to install</li> </ul>
	GYTR® Radiator Braces	BR9-E24C0-V0-00	<ul style="list-style-type: none"> <li>- Constructed with rolled edges and a structural rib that runs along the sides of the braces to limit radiator damage from side impact</li> <li>- Deliver an optimized strength-to-weight ratio</li> <li>- Does not restrict airflow to radiator or increase overheating</li> <li>- Design provides also protection from peel back</li> <li>- Easy-to-install; no loose spacers, no trimming of plastics</li> </ul>
	GYTR® Billet Clutch Basket	BR9-E63A0-V0-00	<ul style="list-style-type: none"> <li>- Lighter than original components</li> <li>- Less rotational mass for improved acceleration</li> </ul>
YZ-F WR-F	GYTR® MX Glide Plate	1SL-F14B0-S0-00	<ul style="list-style-type: none"> <li>- Flexible, lightweight and lower drag co-efficient compared to aluminium glide plates when needing a smooth surface for "gliding" over obstacles</li> <li>- Strong and durable</li> <li>- Can be fitted in conjunction with the standard water pump cover or the optional GYTR® Water Pump Guard</li> </ul>
	GYTR® Rear Brake Clevis	5XC-F72A0-V0-00	<ul style="list-style-type: none"> <li>- Minimizes lateral movement or vibration of the rear brake pedal</li> <li>- Allows more height adjustment</li> <li>- Features a titanium clevis pin that is half the weight of the original pin</li> </ul>
	GYTR® Billet Offset Axle Blocks	33D-F53M0-V0-00	<ul style="list-style-type: none"> <li>- Reversible</li> <li>- Hard-anodized billet aluminium</li> <li>- Sold per pair</li> </ul>
	GYTR® Brake Line Pinch	GYT-1P818-15-00	<ul style="list-style-type: none"> <li>- For great looking accents on your Yamaha</li> <li>- High quality material</li> </ul>
	GYTR® Stainless Steel Braided Front Brake Line	17D-F58E0-V0-00	<ul style="list-style-type: none"> <li>- Utilizes Teflon® inner liner supported by a rugged 308 stainless steel outer jacket</li> <li>- Silver braided lines with black banjo fittings</li> </ul>
	GYTR® Folding Clutch and Brake Levers	17D-H39B0-V0-00 (Clutch) GYT-5XC37-30-00 (Brake)	<ul style="list-style-type: none"> <li>- Folds to prevent damage</li> <li>- Excellent performance as pivot ratio mimics the original</li> <li>- Adjustable lever to grip distance to rider preference</li> <li>- Brass pivot bushing for rider feel</li> </ul>

Product	Part Name	Part Code	Part Description
YZ-F WR-F	GYTR® Radiator Cages	BR9-E24D0-V0-00	<ul style="list-style-type: none"> <li>- Full cage with rod design</li> <li>- Lightweight yet sturdy constructed with stamped 3.2 mm aluminium to provide strength and protection in the event of side impacts</li> <li>- Small modification can be done on radiator shroud to reduce overall width increase</li> <li>- Easy-to-install design means radiator removal is not required</li> <li>- Installs in minutes</li> </ul>
WR-F	GYTR® Enduro Glide Plate	1SL-F14B0-V0-00	<ul style="list-style-type: none"> <li>- Ultimate in protection</li> <li>- Strong and durable</li> <li>- With aluminium mounting brackets</li> <li>- Easy to install</li> </ul>
	GYTR® Plastic Chain Guide	17D-F21E0-V0-00	<ul style="list-style-type: none"> <li>- Constructed of durable Ultra High Molecular Weight Polyethylene (UHMWPE)</li> <li>- Flexible; will not bend in the event of a large impacted</li> </ul>
	GYTR® Rear Brake Guard	1DX-F58F0-V0-00	<ul style="list-style-type: none"> <li>- Constructed of durable Ultra High Molecular Weight Polyethylene (UHMWPE)</li> <li>- Flexible; will not bend in the event of a large impacted</li> </ul>
WR450F	GYTR® Billet Clutch Basket	GYT-5XD56-10-00	<p>Part of the GYTR® Clutch Components which are precision machined from aerospace-quality aluminium with a unique hard coating.</p> <ul style="list-style-type: none"> <li>- The GYTR® Clutch Components provide superior performance and clutch feel, as well as excellent component durability</li> <li>- The patent-pending "auto oiling system" forces oil through specially cut holes in the pressure plate, into the inner hub, and then to the clutch plates</li> <li>- Results in improved clutch performance, with lower clutch temperatures, less clutch expansion and extended clutch life</li> <li>- Less rotational mass for improved acceleration</li> <li>- Lighter than original components</li> </ul> <p>Race-proven durability</p>
